

RAIL WORKERS Hazardous Material Training Program

Peer trainers dedicated to providing quality education & awareness of hazardous materials, empowering rail workers & communities.

Rail Workers Hazardous Materials Training Program

The Rail Workers Hazardous Materials Training Program is funded by a federal grant from the National Institute of Environmental Health Sciences (NIEHS) to provide hazmat training to rail workers.

The Rail Workers Hazmat Training Program was awarded funding to provide safety training to rail workers to increase their knowledge of the transportation of hazardous materials.

The Rail Program will conduct the following courses virtually

90-Minute COVID-19 and Infectious Disease Response Awareness Training Course

- April 16, 2021 - 2:00pm ET
