## FUNDRAISER FOR CHILD OF MEMBER DIAGNOSED WITH LEUKEMIA

Smart Transportation Division Local 278 member Kyle Jones and his wife Samantha received some devastating news on January 14, 2018 when their 7-year old son Ayden was diagnosed with Acute Promyelocytic Leukemia, an extremely rare cancer for someone Ayden's age. If all goes well Ayden's treatment plan will include 9 to 12 months of intensive chemotherapy and bone marrow testing.

As you can imagine this type of care and the need for his parents to be at his side pose a significant financial burden, but your generosity can help alleviate that burden. Please do what you can to help Ayden and his family along his path to remission so he can get back to being a kid as soon as possible.

An online fundraiser has been setup to help the family pay for medical bills. Thank You !
