(d) The employee monthly cost-sharing contributions amount shall be adjusted, effective July 1, 2016, so as to equal the lesser of 15\% of the Carrier's Monthly Payment Rate for 2016 or $230.00, unless otherwise mutually agreed by the parties during negotiations commencing when this Agreement becomes amendable pursuant to Article VIII.

(e) For purposes of subsections (c) and (d) above, the "Carriers' Monthly Payment Rate" for any year shall mean the sum of what the carriers' monthly payments to –

For disabilities lasting less than a month, and for any residual days of disability lasting more than an exact number of months, benefits will be paid on a calendar day’s basis at 1/30 of the monthly benefit rate.

(b) If the RUIA should be so amended as to increase daily benefit rates thereunder for days of sickness and the sum of 21.75 times the average daily benefit for Yardmasters under the RUIA as so amended plus the amount of the $1,941.00 monthly benefit should exceed $3,502.00, the amount of the monthly benefit shall be reduced to the extent that the sum of the amount of the reduced monthly benefit plus 21.75 times the average daily benefit for yardmasters under the amended RUIA will not exceed $3,502.00. ‘The average daily benefit for Yardmasters under the RUIA as so amended’ for purposes of this Paragraph 4(b) is the benefit which would be payable to a Yardmaster who had worked full time in his base year and whose monthly rate of pay at the December 31, 2009 wage level was $5,003.00.”

(d) Service with the carrier in a craft represented by another organization shall also be included in determining periods of employment under this rule.

(f) Any calendar month in which an employee does not render compensated service due to furlough, voluntary absence, suspension, or dismissal shall not count toward completion of the forty-eight (48) month period.

(g) Service scale/rate progression rules as described in Section 1(b) of this Article that are in effect on the date of this Agreement on a carrier covered by this Section shall be preserved without change and applied to new employees unless the authorized employee representative gives written notice to the Carrier of the organization’s election to apply this Section to new employees in lieu of such existing rules. Clinical Support Services

Radiology Notification Program (RNS) – Under this program, a radiology notification process is required for participating (network) physicians, health care professionals, facilities and ancillary providers for certain advanced outpatient imaging procedures, prior to performance, with administrative claim denial for failure to provide notification. The program is a prior notification requirement only, not a precertification, preauthorization or medical necessity determination program, and currently applies to the following outpatient advanced imaging procedures: CT, MRI, PET and Nuclear Medicine, including Nuclear Cardiology. These services that take place in an emergency room, observation unit, urgent care center, or during an inpatient stay do not require notification.

The process may require a physician-to-physician discussion, the purpose of which is to engage the ordering physician in a discussion about the use of evidence-based clinical guidelines. However, the final decision authority rests with the ordering physician. This program is invisible to the covered member – non-compliance (i.e., non-notification) will result in an administrative denial of the claim with no balance billing to the patient.

Centers of Excellence (COE) Resource Services – this service are based on the foundation that certain facilities treat patients who consistently achieve favorable clinical outcomes, as demonstrated by reduced hospital lengths of stay and readmission rates, lower infection rates, etc. Programs are typically designed around specific disease states or conditions in which COEs can be clearly identified. The following programs develop national COE networks and specialty nurse resources that provide specific case management interventions:

1 The actual program names, specific services/processes, and administration will vary by medical vendor.
- Bariatric Resource Services (BRS) - BRS provides a national Center of Excellence network of bariatric surgery centers and hospitals with an upfront case management component.

- Cancer Resource Services (CRS)/Cancer Support Program (CSP) - This clinical consulting with cancer specialists, combined with an extensive nationwide COE network will deliver clinical and financial value.

- Kidney Resource Services (KRS) – KRS provides a large network of dialysis facilities meeting strict quality outcomes with kidney nurse specialists assisting patients.

Treatment Decision Support (TDS) – These services include enhanced one-to-one coaching for individuals facing potential procedures that have been carefully targeted as having varied treatment practices and inconsistent patient outcomes. TDS normally targets back pain, knee/hip replacement, benign prostate disease, prostate cancer, benign uterine conditions, hysterectomy, breast cancer, coronary artery disease and bariatric surgery.

1/ The Coverage Authorization Program consists of traditional prior authorization, smart prior authorization, step therapy and quantity/dose rules which are based on FDA-approved prescribing and safety information, clinical guidelines, and uses that are considered reasonable, safe, and effective. These rules are recommended by an outside, independent organization based on information and data specific to the Railroad membership. Each Therapeutic Drug Category has a rule(s) specific to that category.
