This guide will walk you through:

- When to make mass payroll changes
- Why do we use mass payroll update
- What to look for when making a mass payroll update
- Steps to making a mass payroll update

Making Mass Payroll Deduction Changes

1. Treasurers will use the mass payroll update when Local, LCA , International, State Legislative Board or GCA dues increase or decrease.
2. Using the mass payroll update will allow treasurers to change dues for all members at one time instead of having to change deductions 1 member at a time.
3. When making a mass payroll update a treasurer should be careful that the correct amount is entered when making the mass deduction change.
4. Treasurers that have credentials for the TD-Connect test system can login with the following link and explore the new payroll mass update feature before using it on the live system. The credentials should be first initial of treasurers first name, plus last name for the user name and 12345 for the password.

Currently carrier payroll deductions and carrier payroll mass update is only used for members employed by UP, KCS, and LACMTA.

For members employed by all other carriers/companies, treasurers must use the carrier/company's system or process for updating payroll deductions.

Step 1.

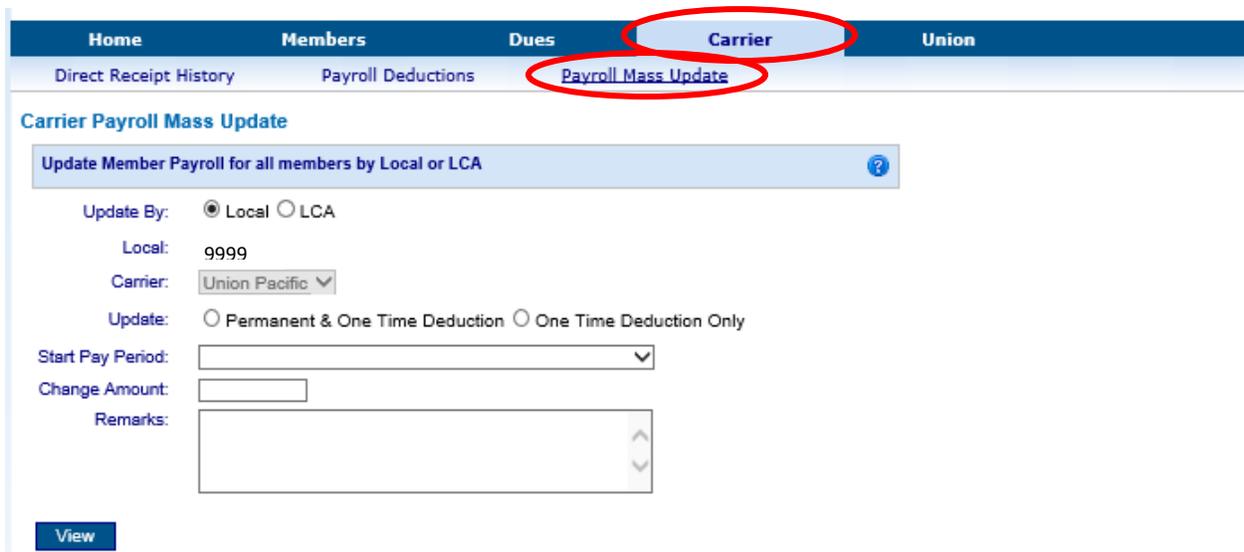

Login to TD-Connect using the credentials supplied by SMART-TD.

The image shows the TD Connect Local Management login page. The 'Td connect' logo is in the top left, and 'Local Management' is in the top right. The 'Log in' section is circled in red and contains a 'Username' input field, a 'Password' input field, a 'Log in' button, and a 'Forgot Password?' link.

Step 2.

Click on **Carrier > Payroll Mass Update**

The image shows the 'Carrier Payroll Mass Update' page. The top navigation bar has 'Home', 'Members', 'Dues', 'Carrier', and 'Union'. The 'Carrier' menu item is circled in red, and its sub-menu item 'Payroll Mass Update' is also circled in red. Below the navigation bar, the page title is 'Carrier Payroll Mass Update'. We will walk through local members first. **Select Local > Permanent & One Time Deduction or select One Time Deduction Only.** Chose permanent & one-time deduction any time dues will be increased or decreased permanently. Select one-time deduction only when deductions only need to be made for one pay period.

Below these are fields for 'Start Pay Period:', 'Change Amount:', and 'Remarks:'. A 'View' button is at the bottom left.

Step 4.

In the **Start Pay Period** dropbox, select the pay period to start the payroll mass update with.

This screenshot is similar to the one in Step 3, but the 'Start Pay Period:' dropdown menu is open and highlighted with a red circle. The selected option is 'MAY-19 2nd Period Cutoff: 05/29/19 for JUL-19 Dues'. The other fields and options are the same as in Step 3.

Note: Treasurers will need to think about when the change should start. In this example notice that the change will take place on the May-19, 2nd period cutoff to be applied to the July-19 dues.

Step 5.

After selecting the pay period, enter the amount for the increase or decrease in the **Change Amount** box. Also enter any remarks you may want to enter and click **>View**. Note: When increasing dues (for example \$5.00) you will enter (5.00) in the change amount box. When decreasing dues (for example \$5.00) you will enter a negative sign before the amount (-5.00) in the change amount box. **Only enter the amount the dues will increase or decrease by, not the entire amount of the new deduction!**
